Round 6: CH 1, * 1 SC in 4 SC, 2 SC in next SC (repeat from * to end), SL in first SC (36 stitches)

Fasten off and weave ends into back.

Attach to side 1:

With color A:

Leaving a long tail at the start, SL through both cotton and jute layers (starting on jute side) in each jute SC around edge. (SL in jute twine SCs will not exactly match SCs on cotton side. Skip a SC on cotton side every few stitches as needed.)

Once back to first SL, cut yarn and pull end through to jute side, leaving a long tail. Tie the two tails together, trimming off extra length. Hide ends by pulling them between the two layers with a crochet hook.

Note: Cotton side will be smaller than jute side, and will stretch as the sides are attached.
